## BrailleNote family of Notetakers

**BrailleNote mPower  
BT32**

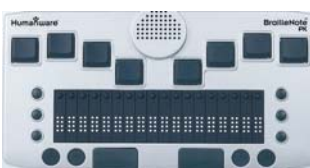

**BrailleNote mPower  
QT32**

**VoiceNote BT**

**VoiceNote QT**

**BrailleNote PK**

### BrailleNote mPower

The **BrailleNote mPower** provides a choice of output options by combining a crisp high definition braille display with clear, responsive speech. Features include Bluetooth and wireless connectivity, a media player, word processor and email. **BrailleNote mPower** lets you work with a wide range of accessories. Use the two USB ports to connect printers, hard drives, flash drives and more. Just plug and play. The **BrailleNote mPower** comes with an 18 or 32 cell braille display and a braille or QWERTY keyboard.

### VoiceNote mPower

The **VoiceNote mPower** will appeal to customers who prefer high quality speech output without a braille display. Most of the same great features of the **BrailleNote** are packed into an even smaller and lighter unit. Choose from either a braille or QWERTY keyboard.

### BrailleNote PK

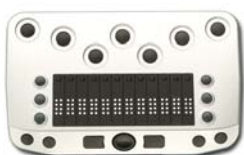

The **BrailleNote PK** is one of the smallest personal digital assistants with an integrated braille display. It includes many of the best features of the **BrailleNote mPower** in a sleek package that fits into your pocket. Ideal for the professional on the move who is looking for an ultra portable and discreet product to take into meetings.

## Portable Braille Solutions

### Brailiant Braille Displays

### Braille Connect

### Embossers

## Brailiant

Despite their tiny size, **Brailiant Braille Displays** are the most portable and yet most advanced braille terminals and the ultimate laptop companion. As well as conventional USB, **Brailiant** connects via Bluetooth - the wireless way to work. No plugs, no cables, no worries. The **Brailiant** is available in 24, 32, 40, 64 and 80 cell models. 30 hours battery with Bluetooth, 100 hours USB.

## Braille Connect

**Braille Connect** is the ultimate companion for your mobile phone, laptop or PDA. Pair **Braille Connect** with a mobile device and write documents, notes, email or text messages in braille using the built-in keyboard. Read from the mobile device in crisp clear braille - no need for speech in a public place. **Braille Connect** works with a variety of screen readers for mobile devices. **Braille Connect** is available in 12 and 40 cell models.

## Embossers

A range of embossers, acoustic cabinets and translation software is available to meet your braille production needs. Either link the embossers to a PC or connect wirelessly and produce hard copy braille from your BrailleNote at the press of a button.

## On the move with GPS Technology

Trekker Breeze

Trekker GPS

BrailleNote mPower GPS

### Trekker GPS

**Trekker Breeze** is a GPS system for blind people to use when travelling in familiar surroundings. **Trekker Breeze** offers the important benefits of a GPS orientation tool. **Trekker Breeze** enhances independence and confidence in travelling and is very easy and intuitive to use in an all-in-one hand held device.

**Trekker** is a revolutionary system that uses GPS and digital maps to help blind people find their way in urban and rural areas. Fitting in the palm of the hand, **Trekker** offers the visually impaired person greater freedom by raising their confidence in their ability to travel near or far, for business or pleasure.

**Trekker Pro** combines the Trekker with Maestro and provides access to most other features on the PDA, i.e. word processing, planner, email, internet and wi-fi. Maestro can be purchased separately.

### BrailleNote GPS

Know where you are, where you are going and the best way to get there with **BrailleNote GPS**. Calculate where you are and plot a route to the destination of your choice. The BrailleNote GPS works with the entire BrailleNote family.

## Digital Talking Books

VictorReader Stream

VictorReader Wave

VictorReader ClassicX

VictorReader ClassicX+

### **VictorReader Stream**

Small in size, big on features this powerful Daisy Digital Talking Book and MP3 Player ensures your library of books and music are always at hand. The **VictorReader Stream** also has a built in text-to-speech facility as well as an internal micro-phone for voice recordings.

Features like the variable speed playback and audio tone control allow you to personalise the **VictorReader Stream**. It has a 15 hour rechargeable and replaceable battery.

### **VictorReader Portable CD Players**

**VictorReader Wave** is a portable solution for people who receive their Talking Books on CD. Now you can listen to your favourite books and music no matter where you are.

For simple, friendly easy navigation, **VictorReader ClassicX** is the ideal companion for leisure reading. Offering basic navigation features, it is easy to browse contents or skip from section to section or page to page. It also plays music CD's, MP3 and audio file CD's.

The **VictorReader ClassicX+** is designed for professionals and students. It is essential for reading complex and highly structured books like textbooks, reference work and manuals.

**All these players support DAISY**
